

LACHUTA

FARM

HOUSE OF CHRYSANTHEMUM

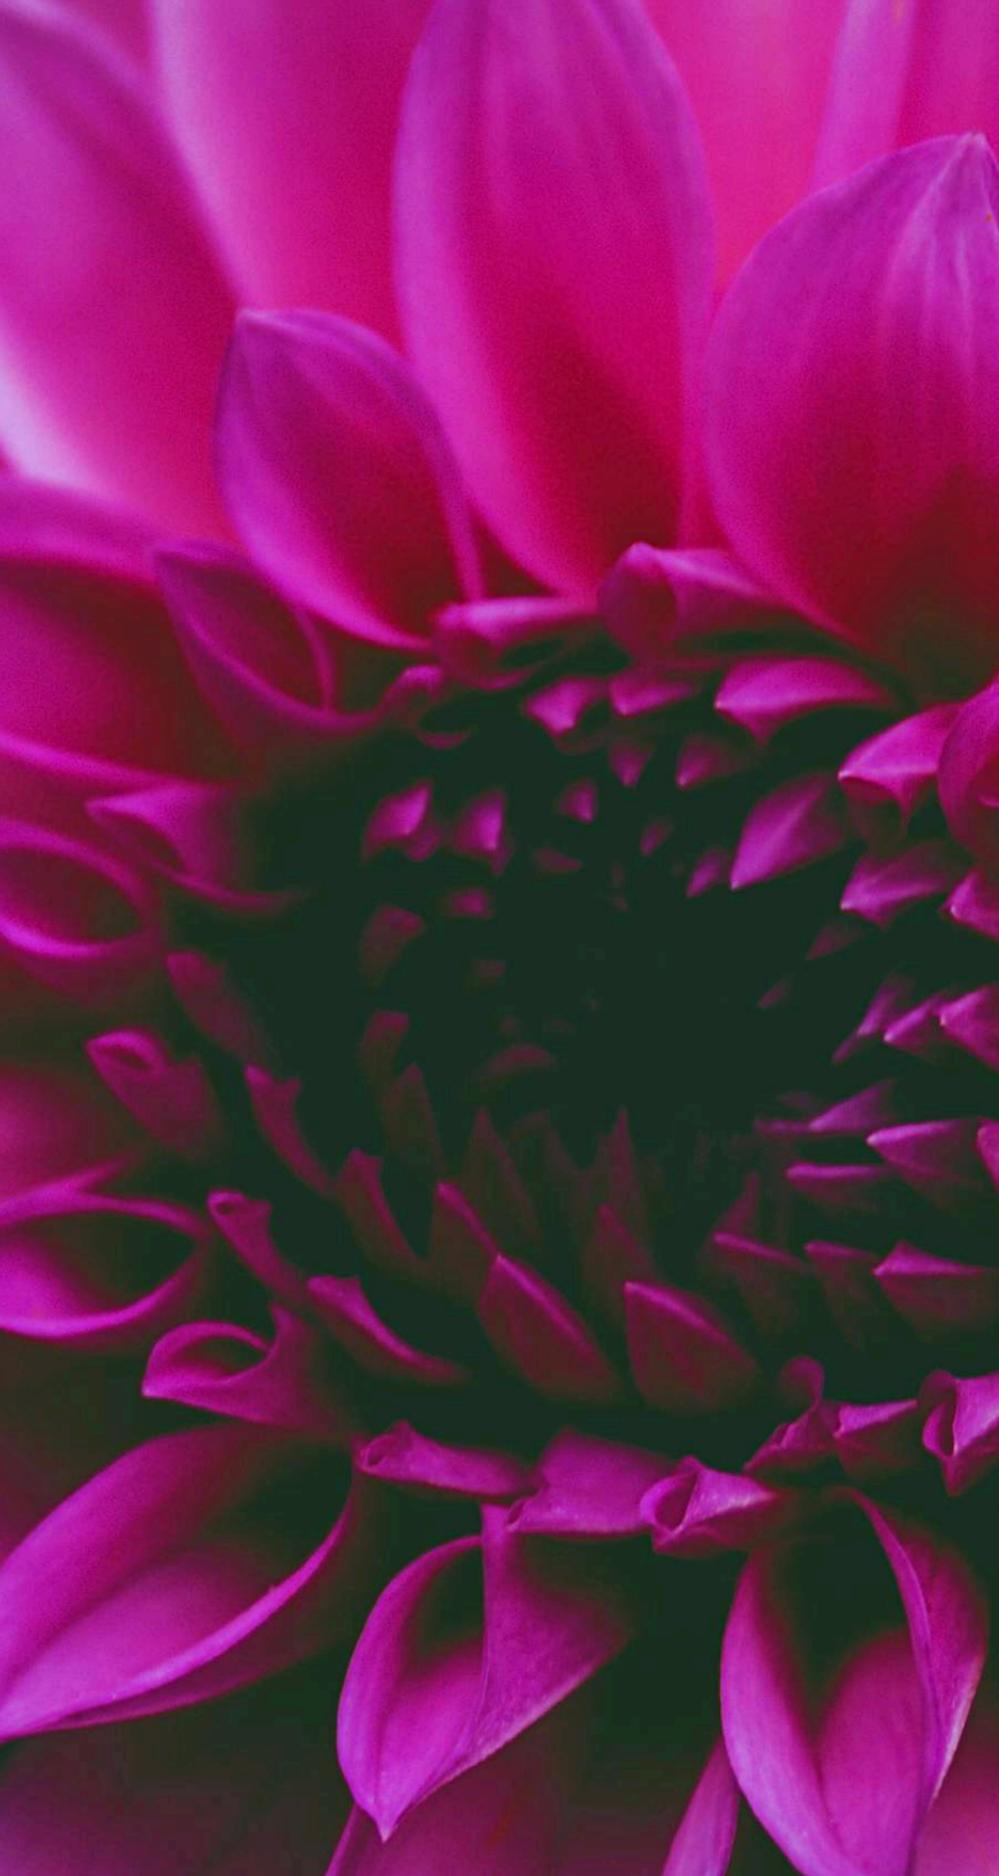

ABOUT

LACHUTA FARM

Nestled in the fertile highlands of Nyeri, Kenya, Lachuta Farm thrives in one of the world's most ideal flower-growing climates. Our elevation and rich volcanic soil create perfect conditions for cultivating extraordinary chrysanthemums.

We specialize in producing high-quality chrysanthemums renowned for their vibrant colors, strong stems, and exceptional vase life; qualities that have made us a trusted partner for florists worldwide.

Our commitment extends beyond beauty: we practice sustainable farming methods that respect the land while delivering consistent premium quality you can depend on, harvest after harvest.

LACHUTA FARM

WHY CHOOSE US

Thanks to Nyeri's exceptional climate, with consistent temperatures and reliable rainfall patterns, Lachuta Farm maintains year-round chrysanthemum production.

This means our partners enjoy uninterrupted supply and consistent quality regardless of season.
